## [2024 JULY NEWS PRESS RELEASE - ORV TRAILS](#)

### PRESS RELEASE

OHSC ORV Trails finally Designated.

After being maintained for ORVs for almost 10 years, Ogemaw Hills Snowmobile Trails are finally officially DNR designated ORV routes : **The Ogemaw Hills ORV Route.**

If you have wondered why the normally finely graded ORV trails from Frank Alley Park west to St. Helen and east to M-33, were untouched after a sketchy snow season, here is the answer...

**A change is imperative to advocate safety**

- This bill is about the safety of thousands of snowmobile riders and tourists from other states that ride miles of marked groomed snowmobile trails that were designed for 48 inch wide snowmobiles.
- The changes and amendments to PA 288 changed the canvas of the ORV access to the trail systems. The legislators that supported the change, were unable to predict what the future of vehicles would evolve into just these few short years later.
- Snowmobiles are manufactured to remain safe and stable on snow covered icy paths, unlike a vehicle with wheels, that are built for rough terrain, dirt or pavement.

## Our Goal

Our goal is to continue to grow the club each year and strengthen our affiliation with the MISORVA (Michigan Snowmobile & ORV Association). Michigan offers the finest snowmobile trail system in the country.

MISORVA is directly involved in maintaining, preserving and enhancing the trail system. MISORVA represents the rights of all snowmobilers & ORV's and protects and promotes our sport.

The expansion of our club's membership increases the club's ability to support legislation which protects our trails for future generations.
