

MARCH - APRIL 2005 PHOTOS

Ice storm has done a lot of damage to the power lines and trees in and around mio

Chavon and Chris Nihls' backyard after the storm.

The March 2025 ice storm caused major power outages AND trail damage in northern Michigan. Mio and Gaylord recorded severe damages. Our trails had some trees down. It was so bad the DNR closed all trails and forest roads so their crews could work.

Power lines took major hits, catching on fire in some cases.

Beechwood

ORV trail into Lupton.

Carl's daughter's property.

The east side trails had damage too. Trees across the trail and a huge water hole developed on trail 6 by the game refuge.
