

November 2025

Thanksgiving Day 2025

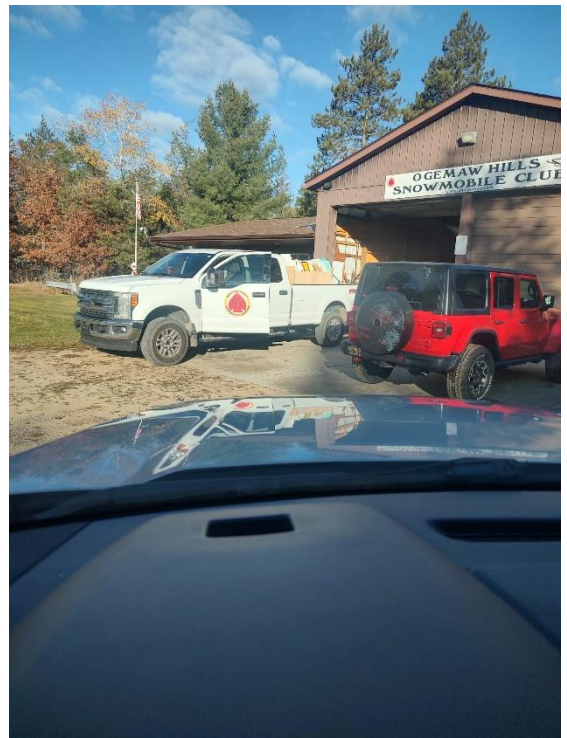

Russ was grading the trail and ran into Greg, Chris and John working on signs.

Russ has been alternating between the blower and the blade and drag.

Keith and Randy Humpert hauled one of Bob Humpert's old Arctic Cats up the ladder and attached it to the roof of the warming hut. Hopefully no one will mess with it.

The new club truck is ready to hit the trails. Greg, Chris and Mike were headed out Thursday.

*Corey took his dozer to level corners and remove stumps.*

*Chris, Greg and Mike spent the day putting in posts and replacing signs.*

Kids liked to sit on the raffle and have Mom take a picture.

Another successful year at the Novi show. Bryan and Pam Lehr were there all weekend. Gary, Dennis, Skip, Chris and Owen were there Saturday. The crowd was down this year but we still sold many raffle tickets, and some maps and memberships.

Pam had to find something to do to pass the time.

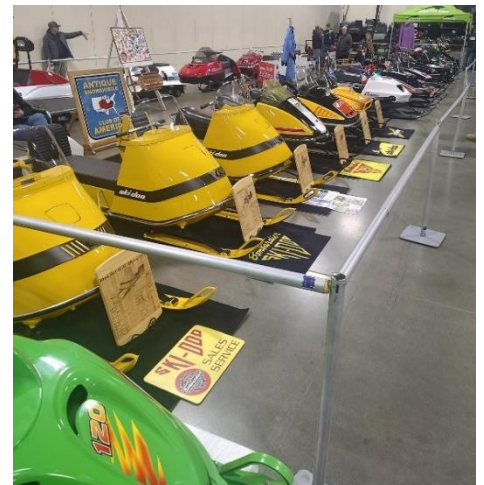

One of our Golf Outing sponsors, The Michigan Sled Chix had a booth there. I stopped to say Hi and Thanks.

A lady professional rider was there.

First new production Arctic Kitty Cat..

Bryan's SkiDoo collection was a bright spot there.

Randy Mitchell, Corey and his daughter and grandson stopped by the booth.

Russ had a rough time grading trails. Very rough to start, lots of chatter spots and bad corners but he smoothed them out.

Russ pressure washed a tractor after finishing pre-snowmobile trail grading. Just in time for the first snow on Frank Alley Park 2025
